Gruesome Find of the Police Relating to the Darant Murder.

Though Found in Dr. Gibson's Study, They Do Not Seem to Regard it as Implicating Him.

San Francisco, Cal., April 31.-The po-Rescue and Caught the Fellow After a lice are still busy in picking up the threads and weaving their network of circumstances and evidence in the Emanuel Baptist Church cases, so as to leave no weak mesh through which the accused can escape for they believe they have the musderer in the person of W. It is now thought they will make an endeavor to try Durant | "st on the charge of murdering Miss Lamint, as the evidence in that case is said to be much sittinger against the prisoner than in the case of the

killing of Miss Williams.

Murder of a Woman That Recalls Jack the Ripper.

BLEEDING IN A HALLWAY

Post-mortem Examination Disclosed the Shocking Fact that the Poor Creature Had Been Inhumanly Beaten and Stamped Upon and Internally Mutilated-Hemorrhage Was the Cause of Her Death.

New York, April 21 .- A murder was rought to light in Hellevue Hospital this afternoon, which is suggestive in some of its details of the White Chapel crimes in London, that made "Jack, the Ripper notorious. The victim is a woman of the lowest class. Her name was Alice Walsh and she was well known in the resorts in the neighborhood of Bleecker and Thompson atreets.

When the autopsy was performed upon her body, it was discovered that certain mutilations had been made which dis tinguished the White Chapel murders although not of so serious a character. Up to a late hour the murderer had not been arrested, but one man who is thought to have some knowledge of the matter was held on suspicion.

The circumstances of the killing of Alice Walsh are peculiar in almost every aspect. About 5 o'clock this morning a woman was found in the hallway of No. 143 Thompson street half unconscious and bleeding. The woman was conveyed to St. Vin-

cent's Hospital and inquiries instituted at the tenement. No one who was there knew the name of the woman, but the night clerk of a restaurant readily identified her as Alice Walsh. NEVER REGAINED CONSCIOUSNESS

Every effort of the physicings to stor the blood proved futile, and the patient expired at 11:15 o'clock, having been in the institution less than four hours. During that period she showed no signs of returning onsciousness, and died without indicating in any way how she met with the circum stances which resulted in her death.

In the course of the afternaon Dr. Phillip O. Hanlon, coroner's physician, made a post-mortem examination of the body and discovered the real cause of death. He found that the woman was bruised and black and blue in almost every part of er body. He found also that she had been bru

tally mutilated with a knife or dagger, and that the wounds thus resulting had started the hemorrhage which had terminated

ratally.

After much searching about the neighborhood the police found that the woman, in company with a tall, broad-shouldered man, who looked like an Italian, a woman known as "Gimpy" Amanda, a girl called "Tecnie," and another man, had spent a portion of the early morning hours in the salcon of E. N. Gariand, at 108 West Houston strat. While there she became greatly intoxicated, and she and her tail companion quarrelled.

They left there, so far as could be ascertained, at about 4 o'clock, a. m. Where they went during the intervening two hours

they went during the intervening two hours cannot now be told.

It is summised that the man who killed her is the Italian stranger in whose company she was in Gariaud's saloon.

A woman in Bellevue Hospital, who had

met her while serving a term on the island, said that she had been living with a man named Terence Collins, who, a short time ago, was sent to the Elmira Reformatory.
